

CUPS MISSION

Dominican Republic. Malawi. Mexico.
Rescue a child. Transform a family. Do it again tomorrow.

Dear *{{First Name}}* ,

When 62-year-old grandmother Agnes developed a persistent cough, chest pain, high fever, and difficulty breathing, her family rushed her to the nearest government hospital. The hospital was overwhelmed. With essential medicines in short supply and inpatient capacity limited, Agnes could not receive the complete treatment she needed. She returned home, but her condition continued to deteriorate.

Her family then brought her to the CUPS Mission Clinic in Malawi. The healthcare team immediately assessed Agnes and provided a comprehensive medical examination, appropriate medication, close monitoring, and follow-up consultations.

Within days, Agnes began to improve. Today, she is back home caring for her grandchildren and is deeply grateful for the compassionate treatment she received.

Pneumonia can quickly become life-threatening, especially for older adults. Your donation can help CUPS Mission Clinic provide timely medical care, essential medicines, and follow-up support to patients like Agnes.

Please consider making a gift today. **Every contribution, regardless of size, helps ensure that vulnerable patients in Malawi can receive the care they urgently need.**

Thank you for helping us bring healing and hope to families in Malawi.

With gratitude,

The CUPS Mission Team

Give to CUPS Mission Malawi Clinic

CUPS LEGACY

Rescue | Transform | Repeat For Generations

Your generosity can continue rescuing children and transforming families long into the future. Consider including CUPS Mission in your will, trust or beneficiary plans.
